THE KNOW-NOTHING PARTY.
As the Louisville Journal and other papers of a like spirit have tried to arouse their partisans, and induce or galvanize a kind of partial existence into the dead and putrid body of Americanism since the late election, we feel that we should not do our duty to our country were we not at this time to call the attention of our readers in general, and of our friends in that party in particular, to some of the dangerous tendencies as well as to some of the dangerous tendencies of the principles of that party. We make the remark without any unkindness towards the members of the American party personally, when we solemnly affirm, that in our opinion there never has arisen a party so dangerous as the Know-Nothing party in this country, as it is.

Its principles necessarily lead to proscription. The spirit that ruled the elections during the dark ages, did not more directly tend to influence men to proscription than the power to the helpless and the weak to submit to the strong and the powerful, than do the principles of the Know-Nothing party, tend to produce the same result now.

In order that our readers may understand this matter, we simply call their attention to the manner in which the elections have been conducted in different places. It is a well known fact, that during the existence of the old white party, it was immaterial how largely they were in the ascendancy in any country, they usually acted fairly in selecting the judges of the elections. Now any one acquainted with the practice of the Know-Nothing party, knows that they have almost invariably appointed both the judges from their own party wherever they have had the power to do so. In addition to this, in former years, a person, whether native or foreign born, could vote without any trouble or interruption, provided such individual was known to have been a regular voter at preceding elections. But the judges of elections under the influence of the spirit of the K. N. party, inaugurated a new practice. They established the usage that persons who were known and who had for years voted in peace, and who had always been known as qualified voters, should be disturbed, insulted, and intimidated, and that efforts should be made, through a rigid and illegal course of action to frighten them from the polls; and all this because they were unwilling to adopt the principles of that proscription party.

As an evidence of the disposition and tendency of the Know-Nothing party, we need do nothing more than appeal to the history of the elections in some of the towns and cities where they were overwhelmingly in the majority. Look at Louisville in 1855. Look at New Orleans and Birmingham in the recent elections. We have been informed that over in the small villages in the interior of Kentucky, where that party has a large vote, that the oldest and most respectable citizens, who were not tutored to vote without being bribed by the rabble, and without having other manly demonstrations made, but in their nature were calculated to intimidate the timid and the unassuming, and to prevent them from voting.

What is most remarkable, and what is more indicative of the true spirit of the party, is that in some places, after doing everything which malignity and brutality could devise to prevent foreigners from voting, and after biasing and ridiculing each other that voted the Democratic ticket, when a foreigner voted the American ticket they would gather around him and applaud and give other demonstrations of their gratification at having secured a foreign vote. They thus gave a beautiful evidence of their consistency in their efforts to secure to Americans only the privilege of voting American.

But we need not dwell on this point. We want candid readers to look at the other side of the picture. We want candid men to read the history of the elections in Philadelphia, Cincinnati, and New York, in all of which the Democrats had overwhelming majorities. Yet you don't hear that the K. N.'s were driven away from the polls at the point of the bayonet, and that peaceable citizens were murdered while endeavoring calmly to do their duty as freemen. While we see in many places where the K. N. party have the ascendancy, every evidence of its malignancy and ill-fated traces. In every place where the Democrats have the ascendancy, law and order prevailed at the elections; and since that time, peace and order and the usual feelings of kindness and friendship are found to exist.

Let partisan editors and political aspirants do what they may to revive the long-dormant spirit of the K. N. party, every true patriot must regard it as a duty to call attention to the men of the right principles, who calmly and with a proper spirit look at these things, can, after the signal condemnation which the whole American people at the recent Presidential election passed upon the party, any longer reasonably and intelligently advocate its claims. Its destruction ought, by freemen everywhere, to be celebrated by the ringing of bonfires, the ringing of bells, and the firing of cannon. From one end of the land to the other—in the country, in towns and cities—over every hill top and along every valley—the exulting voice of freemen should proclaim the death and burial of the Know-Nothing party, and the overthrow of those traitors who sought to sell the South to the Republican party.

THE NEGRO INSURRECTION.
A letter from Hopkinsville, informs us that the report of the insurrection of the negroes at the several Iron Works on Cumberland river turns out to be a false alarm. A company of men under the command of Capt. Jas. Jackson, left Hopkinsville for Paducah on Wednesday last, but found no negroes in arms. The negroes say that an insurrection was contemplated, but that it was not to take place until Christmas. Great alarm prevailed throughout that whole region of country. The schools were dismissed, business was suspended, and the whole country was under arms.

We are rejoiced to hear that all danger has passed away.

THE PRESIDENT'S MESSAGE.—The National Intelligencer says: "The remarks of the President on the progress and structure of the Government, the supremacy of the Constitution, and the comparative rights and duties of the States, are unusually happy, just, and forcible."

MONSIEUR DE L'INSTRUCTION.—The E. J. despatch reports of the 4th inst., says that there are rumors of negro insurrection in that country, and that the holidays were kept as a period of open revolt.

The annual report of the Secretary of the Treasury office, the satisfactory information that the foreign trade of the country for the treasury year, ending 30th of June last, shows a balance in favor of the United States of \$12,224,976.

The Statesman of Sunday, says the Scotia river at Columbus was frozen over, and boys were skating on the ice.

The Louisville Journal is evidently troubled at the awkward position in which its party has been placed by the machine of Gov. Morehead and Judge Brown.

While Judge Brown acknowledged the right of every individual to examine the records in the Secretary's office, yet Gov. Morehead refused to let Messrs. Woolley and Reed to do so, unless they would pledge their honor as gentlemen not to make any public use of what they saw.

This is but a sorry "right" upon the part of the citizen, if it is not permitted to speak of what may be of interest to him. There is no greater tyranny exercised in Europe. Even Louis Napoleon dare not exercise a greater stretch of arbitrary power. No gliding of this matter by the Journal, will make it look the brighter.

Gov. Morehead and Judge Brown had no right to ask for what purpose Mr. Reed and Mr. Woolley wished to examine the records. It was none of their business, and the asking the question by them was a piece of official insolence.

We put the question to any farmer in Kentucky, that if he desires to examine some record in the office of his county, whether he would feel outraged if the Clerk were to refuse him the permission unless he first pledged his honor to say nothing about what he saw? It would take away from him the right to a suit, to consult a lawyer, or to ask the advice of a friend, and would indeed be a dangerous blow at the freedom of speech itself.

It is a fair construction to place upon the conduct of these Frankfort officials, that there is something about these records which will not bear the light, and therefore they have refused to let them be seen.

The Nashville Banner has the following item:

Information was received here yesterday direct from Chattanooga to the effect that the branch of the Bank of East Tennessee at that place was closed on Tuesday. The information is reliable. We understand that the circulation of the Bank is heavy, not only in Tennessee but in other States.

The general opinion was that the mother Bank and the branch had also expanded, though we could ascertain no reliable grounds for making the statement, aside from the undoubted fact that the Chattanooga branch had closed.

NEW HAMPSHIRE OFFICIAL.
The following is the correct vote in New Hampshire:

Freeman,	35,342
Buchanan,	35,122
Sumner,	420

The above, though correct, is not the official vote, the State canvassers having rejected, for technical reasons, and threw out the vote of thirteen towns.

OFFICIAL VOTE OF MISSOURI.

Buchanan,	57,599
Fillmore,	48,496

Buchanan's majority, 9,493

The **Courier**—The Washington correspondent of The New York Herald says:

General Cass informed me to-day that there was not one particle of truth in the report that he had been tendered a place in Mr. Buchanan's Cabinet, and furthermore, that not one word or line had passed between them in reference to it or any other subject.

The day after the President's message was published, it appeared in full in the New York States-Democrat and the Courier des Etats-Unis, translated in the one case into German, and the other into French.

A despatch from St. John, N. F., says there is a slighting there.

The Cincinnati Commercial of yesterday notices the Pork market for Saturday:

The Pork market was dull to-day, and the transactions were a declining market, for all articles. Flour is firm with a good demand, and prices at the close were a shade higher.

COMMERCIAL, & C.
Hogs.—We copy the following from the Louisville Price Current of Saturday:

Notwithstanding the unfavorable news with regard to the Pork market, we notice an improved feeling in the market for hogs. Hogs are now held in the country at 44c gross, and, according to our advice, but small lots are left on hand throughout Kentucky. It is probable that two-thirds of the hogs which are yet to come to this market will be brought from Indiana. The first drives from there were received this morning, and the hogs are as yet in the books and green hogs, as are yet in the view of the prices paid for hogs in the country, but an improved feeling exists in the market which does very firm at the following quotations:

Hogs from the books, 60c; Green Hogs, 75c; Sides, 80c; Ribbed Sides, 65c; Clear Sides, 64c; Meat Pork 16c; Prime Leaf Lard, 10c; Head and Gut Lard, No. 10c.

Heavy sales have been made during the week of all kinds of green meats at the above quotations, or even a shade lower. But holders are now widely withholding sales, for in all cases an advance on the present prices must be established. The stocks of old pork and lard and of every description are very low everywhere, and the supply of hogs in the market this season will be a decrease of about \$4,000,000 from Cincinnati, and elsewhere, the crop is short in the same ratio.

PROVISIONS.—There is an improved feeling in the market for hogs, and holders now ask 16c, for meat pork 16c. It is believed, however, that the market will be bought in large lots at 15c. In the early part of the week sales of some magnitude were made for future delivery; viz: 3,000 lbs. meat pork at 15c 1/2, and 500 tons of lard at 14c 1/2, also 1,000 tons of lard at 15c. There were some large sales made the latter part of the week in meat, besides small retail lots. We have also to notice that heavy receipts of meat have been made on orders accumulated during the low stage of water.

TORRACCO.—The demand for leaf tobacco continues to be very brisk. But the receipts have fallen off, and have not been equal to the sales made during the week. The receipts, however, are expected to be heavy during the ensuing week, on the arrival of Green River boats. No change in prices.

We quote large, common and light weight 8 3/4c; do full shipping weight, 8 3/4c; do medium leaf, 10 1/2c; prime leaf, 12 1/2c; extra choice manufacturing leaf, 14 1/2c to the high rate figure; and also 1 1/2c for Kentucky tobacco, 75c; and for Virginia 24 1/2c, depending entirely upon the quality and competition by resident manufacturers.

SAGGERS AND RAIN ROPE.—The recent rise in the Ohio has impeded some activity in this market, and several houses have made shipments, mostly, however, of machine rope. The receipts of these articles continue very light. The stocks are unusually heavy, but it is expected that a material reduction will be made during the ensuing week, in filling orders which have accumulated.

The following quotations represent the range of prices for various grades in market: common to fair bagging, 17 1/2c; good to extra choice 18 1/2c; extra choice 19 1/2c; good to extra choice 19 1/2c; THE FIRE.—The fire which broke out in the Times building Sunday morning, as reported in our paper, was not extinguished until 2:30 o'clock, consumed the two lower stories of the building, and, by the time the fire broke out, the building was nearly completed, and had a beautiful front. They were totally destroyed. We understand they were fully insured in the City of Hartford, Conn., and New York, and Franklin, Pa., and it is not known who is the owner.

The stores adjoining, and occupied by Messrs. J. E. Reed & Co., and Crab & Judah, sustained some damage. A portion of their goods were also slightly damaged by removal and water.

The alarm of fire Sunday evening proceeded from Col. Metcalfe's brewery. It was put out without the aid of the fire engines.

Lecture.—Mr. Donald MacLeod will lecture at the Mount Hall this evening, before the Young Men's Catholic Literary Association, on "State Justice—Mary, Queen of Scots." Mr. MacLeod lectured in this city last winter to large audiences, and will be remembered as an interesting and eloquent lecturer. He has never failed to win the highest praise wherever he has been.

The subject upon which he lectures to-night is one of the most interesting in history, and one which excited the research of the best minds in Europe and America. Whoever desires a rich intellectual report, will attend Mr. MacLeod's lecture.

Theater.—There was a very large audience at the Theatre last night to witness the impersonations by Miss Emma Stanley, of the "Seven Ages of Woman." From the rise of the curtain till the close of the entertainment, she kept the audience in a continual roar of laughter.

She commenced with the little babe in long clothes, and gave representations of the manners and customs peculiar to girlhood and womanhood, down to the close of life, interspersed with a great variety of dialect and personal peculiarities, changes of dress, &c.

Tonight the same bill will be presented, and we would advise all who wish to enjoy a pleasant evening's entertainment, to go and see Miss Stanley. Miss Walbridge will appear in a new and original drama, after which will be presented the "Seven Ages of Woman."

Accident.—The dry goods store of Durkee, Heath & Co., was broken into last night between twelve and one o'clock. The thieves stole a quantity of goods, principally in the value of \$3,000. The stolen goods were mostly plain black. An emerald black velvet coat, and a plain black velvet dress, narrowly missed, were taken with the goods. The robbers effected an entrance by passing over one of the panels in the back door. The door to the yard, which leads to the alley, has usually been left open, as the yard extends to several adjoining buildings. One of the clerks of the house sleeps in an upper story, but the robbers were so quiet about it that he or any of the neighbors heard anything of them.

Accident.—Last night about 8 o'clock a half grown boy ran across Main street, to the corner of Fourth, and came in contact with the handle of the pump at that corner, with a check that fell him senseless to the ground, and had almost proved fatal. For half an hour he scarcely breathed, and when we saw him an hour after, he could not recognize his friends or speak. We did not learn his name. He was taken to the drug store of Mr. Ringgold and kindly cared for.

Great Gift Sale.—Ninety-six Third street is the place to get your money back. The proprietor of the Oriental Life Liniment is selling this valuable remedy at 25 cents per bottle and giving each purchaser of a bottle a gift worth from ten cents to twenty-five dollars.

The Oriental Life Liniment should be kept constantly on hand by every family. One great evidence of its usefulness is the fact that over one hundred and fifty thousand bottles have been sold in the last three years, and the demand is increasing every day. Remember the place, 96 Third street, between Market and Jefferson, near the Post Office.

Important to Betting Men.—The Supreme Courts of Ohio and South Carolina have lately decided that the losing party in a wager may recover from the stakeholder the money he may have deposited with him, although the latter, after the determination of the wager, had, by the order of the depositor paid the money over to the winner. This decision of the court is destined to effect an entire revolution in the betting world.

Bounder at Lexington.—We learn that a case of shoplifting occurred in the market house, at Lexington, about daylight Saturday morning. Michael Johnson, alias twice a Mr. Shelby, both balls taking off in the breast, just below the left shoulder. The parties were rivals in the fish trade, and were engaged at their business when they became engaged in a difficulty concerning the quality of their articles.

Shelby is supposed to be mortally wounded. Johnson was taken before Judge Thomas, of the Lexington City Court, and held to bail in one thousand dollars.

The Ladies' Fair.—Last night was so much attended as a friend of such an enterprise could well anticipate. The assemblage of lovely females was immense. The Hope for the future, we noticed, had one of the finest and most magnificent stands that we have seen for a long time, which is owing to the indefatigable efforts of a native member of "No. 4."

At Lexington.—At an election on Saturday, the 26th inst., the citizens of Danville, Ky., declared against the licensing of coffee-houses, by a majority of 20.

Where did you buy that tasty overcoat? "At Mansfield's." He is selling out his entire stock of elegant clothing and furnishings goods at cost. Go there now if you want fine articles in this line—don't delay for they are selling at bargain.

The river here is falling. The Pittsburgh Gazette says: "The Allegheny came booming out yesterday morning, and brought the stage of water to 7 1/2 feet, but was falling again in the evening." About 15 pairs of lightly loaded coal boats went out, and we hope they may get safely through.

Arrived.—The boat Windsor arrived on Sunday from Pomeroy, with six boxes of coal, consigned to Mr. Robb. It met with a rapid rate yesterday at 14 cents.

Heavy Tax.—Theaters in New Orleans are taxed by the State \$200, by the City \$315, and for Charity Hospital \$500—total \$1,015 per annum. A petition is about to be presented to the legislature to reduce the amount.
